

## **HydraFacial**

### **What is Hydrafacial?**

The Hydrafacial machine is a medical-grade facial device that performs “hydra-dermabrasion”. It carries out a patented three-part regimen — cleansing, exfoliating, and then infusing skin with intensive serums.

### **How does it work?**

Rather than blasting the skin with grit, like traditional dermabrasion procedures, this gentler approach vacuums out pores while simultaneously pushing in potent actives, which moisturize, brighten, plump, and protect. The machine's hand piece holds patented spiralized treatment tips equipped with "vortex technology" — the whirling force that both extracts AND delivers. Beyond the standard three steps, there are targeted add-ons, or boosters, which take aim at your unique skin care concerns.

### **Which skin care concerns can be addressed with Hydrafacial?**

- Fine lines and wrinkles
- Hydration and radiance
- Improved firmness and texture
- Pore size, oil and acne
- Sun damage and hyperpigmentation
- Rosacea
- We can tailor a treatment for virtually anything...Hydrafacial appeals to nearly every age, complexion and concern!

### **How long does it take?**

One of our favorite things about the Hydrafacial treatment is how quick and easy it is. We believe our clients can live confidently through amazing skin, and it doesn't have to be hard, expensive or complicated...that's why we have HYDRAFACIAL! 30 minutes, 3 steps, best skin of your life.
